GENERATIVE AI POLICY IMPLICATIONS FOR CISOS AND CIOS

March 13, 2025
5:30 PM-9:00 PM

Eastern Time

In the rapidly evolving travel and hospitality landscape, implementing Zero-Trust security models presents unique challenges and

opportunities for industry leaders. This CxO roundtable will explore the delicate balance between robust security measures and the seamless guest experiences that define the hospitality sector.

This roundtable aims to foster a collaborative dialogue on best practices, innovative solutions, and strategic approaches to Zero-Trust adoption in the travel and hospitality industry. Attendees will gain insights into balancing stringent security measures with the high-touch, personalized service that guests expect, while navigating the complexities of a decentralized, cloud-dependent operational model.

CHAIR

TOGETHER WITH
