HOW AUTOMATING THE SECURE
SOFTWARE DEVELOPMENT LIFECYCLE
(SSDL) REDUCES COSTS AND INCREASES
OPERATIONAL EFFICIENCIES

June 20, 2024

5:30 PM-9:00 PM

Eastern Time

Financial institutions are undergoing transformative change. We'll explore emerging Artificial Intelligence (AI) and Machine Learning (ML) technology-driven security trends and discuss how enhancing your cybersecurity tech stack capabilities can: - Increase overall cost savings and ROI - Reduce loop alerts and storage costs - Improve operations, delivery, and speed to market - Enable adherence to regulatory compliance - Drive business growth and cyber resilience
