

AGENDA

Securing Hybrid and Multi-Cloud Environments

Executive Dinner

SPEAKERS

Leo Kershteyn
Director Product
Management
[Honeycomb.io](https://honeycomb.io)

Belinda Mobley
VP - Security
Enablement
[Truist](https://truist.com)

Erik Brown
Director, SOC
[Elliott Davis](https://elliott.com)

Kenneth Viciana
Global VP, Data &
Analytics Products
[TSYS](https://tsys.com)

Felicia Hedgebeth
CIO
[Department of
Banking and
Finance, State of
Georgia.](https://stateofgeorgia.gov)

Steve Paek
Director,
Cybersecurity
[AT&T](https://atandt.com)

Abhijit Katkar
Corporate VP, Cyber
Security Architecture
& Engineering
[New York Life](https://nyl.com)

Amith Ganesan
Director, IAM &
Enterprise Systems
[Mandarin Oriental
Hotel Group](https://mandarinoriental.com)

SECURING HYBRID AND MULTI-CLOUD
ENVIRONMENTS

February 26, 2025

5:30 PM-9:00 PM

Eastern Time

As businesses continue to adopt hybrid cloud infrastructures, safeguarding the movement of data and applications between on-premises systems and cloud platforms has become a top priority.

Advanced tools like Next-Generation Firewalls (NGFWs) are essential for securing these dynamic and interconnected environments. With capabilities such as deep application visibility, intrusion prevention, and threat intelligence, NGFWs provide robust defenses. This roundtable will explore the vital role of NGFWs in hybrid cloud security, highlighting how they support risk management, regulatory compliance, and defense against evolving cyber threats.

Join us for an engaging discussion where experts and peers will share insights on:

- Effective approaches for implementing NGFWs in hybrid cloud environments
- Seamless integration of NGFWs with existing security ecosystems
- The evolution of firewall technology and its impact on multi-cloud security strategies
