Pfizer

Join Reltio and your life science industry peers for this in-person seminar focused on accelerating data value and driving data innovation by sharing best practices and learnings on data unification and management.

During this half-day event, attendees will have the exclusive opportunity to learn from peers, data innovators, and leaders in data management as they share stories of their first-hand experience in data for life sciences.

Don't miss this one-of-a-kind opportunity to learn from and engage with like-minded data leaders in the life sciences industry!
