**SCALING AUTONOMOUS AI WITH
CONFIDENCE ACROSS HYBRID AND
MULTI-CLOUD ENVIRONMENTS FOR THE
NEW AGENTIC ENTERPRISE**

September 24, 2026

6:00 PM-9:30 PM

Central European Time

Join Informatica from Salesforce, and AWS for an invite-only dinner bringing clarity to the data foundations required for enterprise-grade agentic AI. You'll hear how enterprise organizations solved these challenges and learn how governance, and quality can be embedded into agentic workflows to enable confident decision-making without constraining innovation. This event is a space for peers to share perspectives on how organisations can leverage platforms such as AWS alongside existing infrastructure, enabling AI to be operationalized with confidence, regardless of cloud strategy.

TOGETHER WITH
