AI AND ML: USING EMERGING TECHNOLOGIES TO REINFORCE SECURITY DEFENSE EFFORTS

October 06, 2021

3:00 PM-4:15 PM

Eastern Standard Time (EST)

The improvements in Artificial Intelligence (AI) and Machine Learning (ML) are a double edged sword. It has the capability to improve upon security decision making and incident pattern recognition while also enabling hackers to create malware. Thus it is critical for CISOs to adopt these technologies to stay ahead of advanced threats and improve the recognition of exploits and weaknesses within their networks.

CHAIR

VJ Viswanathan
CEO
Torque
