# AGENDA

## The Future of Cybersecurity & IT

# CIO & CISO Think Tank

## SPEAKERS

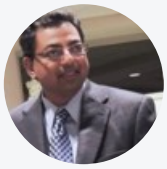

**Rajeev Khanna**
CIO
Trucordia

**Richard Rushing**
CISO
Motorola Mobility

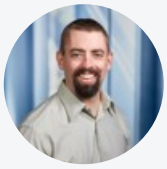

**Katherine Mowen**
SVP Information Security
Guaranteed Rate

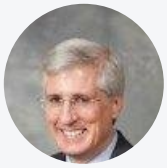

**Manish Mathur**
CTO & Director Healthcare & Life Sciences
Google

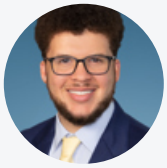

**Ebenezer Arumai**
Chief Information Security Director
Oldcastle Building Envelope

**Brent Deterding**
CISO
Afni, Inc.

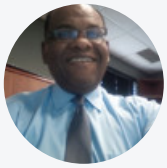

**Kevin McDermott**
CTO Former
Cook County

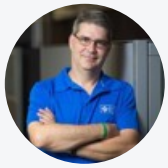

**Zach Savage**
CISO
Harrison Street

**Rahul Patel**
Director of Cybersecurity
Cook County Clerk

**Donald Wheeler**
Senior Vice President, Information Technology
YWCA Metropolitan Chicago

**PHILIP JAPIKSE**
CTO
Pintas & Mullins Law Firm

**David Schaar**
CISO / Director, IT Security & Compliance
Genuine Cable Group

**Jeff Wolniakowski**
CIO
Sage Equity Partners

**Donna Walker**
Director, Midwest Enterprise Sales
Azul Systems

**Katherine Smith**
Chief Product & Technology Officer
Lactation Network

**Lonnie Washington**
Executive Director Enterprise Systems
City Colleges of Chicago

**Raju Chekuri**
CEO
Netenrich, Inc

**George Wang**
CMO
Peterson Technology Partners

**Katie Hanahan**
Former Deputy CISO
Ingredion

**John Kellerhals**
President / CISO
InfraGard Chicago

**Sid Chakravarty**
VP, Advanced Modeling and Forecasting
Synchrony

**Michael LaRue**
Deputy Director of Software Delivery & Data
University of Illinois Chicago

**Yael Gomez**
Fractional CIO / CTO I Former
Walgreens Boots Alliance

**Hannah Johnson**
SVP, Strategy & Market Development

## Cybersecurity Resiliency Through Data Driven Operations

**9:40 AM-10:05 AM**

In today's rapidly changing cyber landscape, mere protection of your environment is insufficient. To achieve true cybersecurity resiliency, ingesting data at scale to eliminate blind spots while leveraging analytics and machine learning to identify potential threats and issues is crucial. Cybersecurity teams must shift from reactive to proactive, they must shift to dedicating more than 90% of their efforts to preventing incidents before they occur rather than responding post-incident, they must shift from the practices of traditional EDR and SIEM operations. Embracing Adaptive MDR (Managed Detection and Response) is the key to this proactive approach, ensuring robust and resilient cybersecurity.

SPEAKER

**Raju Chekuri**
CEO
Netenrich, Inc

KEYNOTE PANEL

## Elevating Agility: The Strategic Imperative for CIOs in Prioritizing Cloud Engineering

**10:10 AM-10:55 AM**

In this session, we delve into the imperative for CIOs to prioritize cloud engineering in the contemporary digital landscape. As organizations increasingly rely on cloud computing for operational efficiency and innovation, CIOs play a central role in shaping robust strategies. The session emphasizes the strategic importance of cloud engineering in optimizing infrastructure, ensuring scalability, and fostering agile application development. Attendees will explore practical approaches to resource management, automation, and aligning cloud initiatives with overarching business goals. The discussion navigates the evolving realm of cloud technologies, highlighting how CIOs can strategically prioritize cloud engineering to drive competitiveness and resilience in the dynamic digital ecosystem.

CHAIR

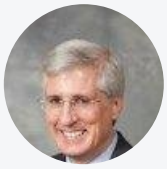

**Yael Gomez**
Fractional CIO / CTO | Former
Walgreens Boots Alliance

PANELISTS

**Rajeev Khanna**
CIO
Trucordia

**Kevin McDermott**
CTO Former
Cook County

**Jeff Wolniakowski**
CIO
Sage Equity Partners

## Coffee Break

**10:55 AM-11:15 AM**

FIRESIDE CHAT

**11:15 AM-11:50 AM**

# CISO Mastery: The Nexus of Seamless Business-Technology Harmony

In 2024, CISOs and CIOs take center stage in fostering harmony between business and technology, balancing discipline and ownership. This session emphasizes their pivotal role, introducing 'Gen AI' as a crucial topic. Gen AI explores securing AI-driven technologies responsibly and ethically. Recognizing technology as a key enabler, CISOs navigate the evolving landscape, ensuring the integrity of data, driving innovation, and challenging traditional business models. Join us to explore the multifaceted responsibilities of CISOs, shaping a secure, agile, and ethically-driven future for organizations in the dynamic landscape of 2024.
Navigating the evolving landscape between business and technology demands a strategic blend of discipline and equilibrium. Recognizing that, for many organizations, technology is the business itself, this session underscores the imperative of understanding technology as a critical enabler across all facets of the organization. From the front lines to the back office, technology serves as a potent tool for creating value by processing data, driving innovation, and challenging traditional business models.

VISION VOICES

**11:55 AM-12:10 PM**

## Navigating the Upcoming CCPA Cybersecurity Audit Regulations: Key Requirements and Best Practices for Compliance

On November 8, 2023, the California Privacy Protection Agency (CPPA) published a proposed draft of its cybersecurity audit regulations under the California Consumer Privacy Act (CCPA). Covered businesses in California must undergo a cybersecurity audit annually and submit a compliance notice to the Agency. These audit regulations are still in draft, but it is anticipated that a formal announcement can come soon as Q2 of 2024.

Is your organization impacted?
What are the CCPA Cybersecurity audit requirements?
Best practices to approach CCPA Cybersecurity audit requirements?

**Abhay Shah**
Head of Technology, Infosec Risk & Compliance
DoorDash

DISRUPTOR

**12:15 PM-12:30 PM**

## Java for the Modern Enterprise

Java has maintained its status as one of the top programming languages even after three decades. Java is everywhere today in how we live, work, and play from streaming services to online retail shopping to trading platforms and more. Learn how a highly optimized version of OpenJDK can deliver superior performance, carrying capacity, and user experience for your key business applications. With changing licensing models, choosing the right OpenJDK distribution is key to secure, stable, and cost-effective builds of OpenJDK. Finally, we'll provide insight into how to identify vulnerable code and unused code to boost productivity while increasing the overall security across the enterprise.

SPEAKER

**Donna Walker**
Director, Midwest Enterprise Sales
Azul Systems

## Lunch & Networking

DISRUPTOR

**1:30 PM-1:45 PM**

## Bridging the Cybersecurity Skills Gap: Cultivating a Talent Pipeline that Reduces Risk and Prevents Attacks

Demand for technology workers is exploding. Tech occupation employment over the next 10 years is expected to grow at about twice the rate of overall employment across the economy in the U.S. Organizations are adopting a skills-based approach to fill their needs through hiring and upskilling. This is especially important in cybersecurity, where the preparedness and expertise of employees are paramount in preventing, identifying, and resolving cyber risks and attacks. However, 38% of C-suite leaders report cybersecurity as the area with which they have the greatest difficulty hiring. We'll explore the value of upskilling, reskilling, and certifications in bridging the IT and cybersecurity skills gap and discuss how leaders can cultivate a strong talent pipeline.

SPEAKER

**Hannah Johnson**
SVP, Strategy & Market Development
CompTIA

PANEL

**1:50 PM-2:35 PM**

## Strategic Shifts: Reimagining Engineering Talent Deployment and Management in the Age of AI (GenAI)

Unlock insights into the evolving landscape of talent deployment and retention as board expectations drive CIOs and CISOs to rethink traditional IT talent models. Explore the impact of GenAI on coding processes and the software engineering lifecycle, and discover strategies for optimizing talent allocation and headcounts. Gain actionable insights into defining new roles, cultivating essential skills, and charting GenAI-centric career paths to align with organizational goals and stay ahead in a rapidly changing technological landscape.

Synchrony

VISION VOICES

**2:40 PM-2:55 PM**

## Guarding the Cloud: Navigating the Rising Tide of Cloud Vulnerabilities and Cyber Threats in 2024

Cloud computing services have become a cornerstone of modern business operations, providing organizations with the agility and scalability needed to thrive in the digital age. However, in 2024, the threat of cloud vulnerabilities will continue to grow as more companies adopt cloud services. Cybercriminals are constantly finding new ways to exploit vulnerabilities in cloud infrastructure, which can result in data breaches, unauthorized access, and financial losses. To mitigate the risks of cloud-related security incidents, businesses must prioritize implementing robust security measures such as multi-factor authentication, encryption, and regular penetration testing. Additionally, businesses must develop comprehensive incident response plans that take into account the unique challenges of cloud-based attacks. By taking these steps, businesses can protect themselves and their customers from the growing threat of cloud vulnerabilities in the digital age.

SPEAKER

**John Kellerhals**
President / CISO
InfraGard Chicago

## Networking Break

**2:55 PM-3:15 PM**

VISION VOICES

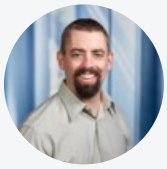

## Building a Cyber Resilient Culture

**3:15 PM-3:30 PM**

The ability of an organization to prepare for, respond to, and recover from cyber threats. A cyber-resilient organization can adapt to known and unknown crises, threats, adversities, and challenges.

In today's dynamic digital landscape, fostering a cyber-resilient culture is paramount. It involves not only fortifying defenses against current threats but also anticipating and preparing for tomorrow's uncertainties. To achieve this, organizations must prioritize both technical measures and cultivate a workforce that is informed, vigilant, and adept at responding effectively. This holistic approach extends beyond individual organizations, requiring collaborative efforts, information sharing, and awareness of emerging threat landscapes to create a network of resilience in the face of evolving cyber challenges.

SPEAKER

**Brent Deterding**
CISO
Afni, Inc.

PANEL

## Ransomware and Cyber Readiness

**3:35 PM-4:20 PM**

Ransomware attacks are in the headlines, affecting businesses and individuals in all sectors. Through 2024, these attacks have continued to grow, resulting in significant financial losses, data theft, and reputational damage. Even businesses that have achieved a level of cybersecurity compliance remain at risk unless they have understood what impact a ransomware attack really means in the context of their business.
The good news? When you have identified how to protect your business from a ransomware attack you have already defined what needs to be done to reduce your total cyber risk exposure across all levels of attack. Ransomware might be the most reported attack, but is nowhere near the most expensive or damaging cyber attack you might face.
