BUILDING TRUST IN AGENTIC AI: FROM FOUNDATION TO MARKET

November 12, 2025

6:00 PM-9:30 PM

Central European Time

The pressure on the German economy is increasing: companies must modernize processes, reduce costs, and ensure security to remain competitive and drive growth. In this roundtable, we will discuss key challenges in manufacturing with industry leaders and explore how modern approaches – from predictive maintenance to cloud security – are implemented on the foundation of cloud services. Learn and discuss with decision makers how organizations can accelerate business expansion, achieve cost savings, and strengthen security through migration and modernization.
