C VISION INTERNATIONAL

AGENDA

AI-Driven Cybersecurity

Security Innovations Forum 2026

SPEAKERS

Loren Russon
SVP of Product & Technology
Ping Identity

Sundar Jayashekar
VP, Product Management
Palo Alto Networks

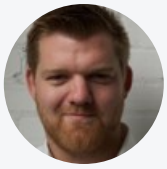

Purvi Desai
VP Engineering
Zscaler Inc

Lionel Litty
CISO & Chief Security Architect, VP
Menlo Security

Rohan Singla
CIO/CISO
ChargePoint

Josh Madeley
Practice Lead
Mandiant

Brice Daniels
Head of Northeast Offensive Security Services, Mandiant Consulting
Mandiant (now part of Google Cloud)

Muhammad Muneer
Technical Manager Incident Response
Mandiant (now part of Google Cloud)

Vineet Bhan
Director, Global Head of Security & Identity Partnerships
Google Cloud

Joshua Haslett
Strategic Technology Partner & Manager, CyberSecurity
Google

Usman Qureshi
Global Tech Partnerships
Google

Siva Inguva
Head of Security and IT
Applied Intuition

Google Cloud

Join industry leaders and security innovators to explore the seismic shift to autonomous, machine-speed defense powered by **Gemini**. Discover how **Google Cloud, Mandiant,** and our **premier partners** are transforming security operations with production-ready AI agents from the groundbreaking **Agent Marketplace.** Through high-impact technical showcases of **Gemini Enterprise Agent Platform,** executive panels, and frontline intelligence briefings, you'll discover how to outpace modern threats, streamline remediation, and strengthen resilience in today's AI-driven cloud environments.

Pacific Time

Registration	**9:00 AM-9:30 AM**
Breakfast & Morning Networking	**9:30 AM-10:00 AM**
Opening Remarks	**10:00 AM-10:15 AM**

KEYNOTE

10:15 AM-10:45 AM

Securing the Agentic Enterprise: AI-Native Defense at Machine Speed

In this insightful keynote we explores how AI-driven operations are helping enterprises strengthen resilience, accelerate response, and secure complex multi-cloud environments through:
Shifting to autonomous defense with continuous, machine-speed defense to counter weaponized AI threats.
Proactive protection with Gemini to transition from isolated, reactive tools to a unified, proactive security posture.
Deploy autonomous agents via the new agent marketplace and Gemini Enterprise that predict attack paths and automate deep code remediation.
Achieve true cyber resilience with Google AI Threat Defense, a newly announced, always-on program built to continuously safeguard multi-cloud environments.

KEYNOTE PANEL

10:50 AM-11:35 AM

Co-Innovating the Future of Cybersecurity: A C-Suite Perspective

Join top security company leaders as they explore how agentic platforms are transforming threat response at enterprise scale.
Beyond chatbots: Building interactive security requires multi-step reasoning and structured user experiences rather than raw models.
C-suite insights: Gain C-suite insights on building advanced agents that handle intricate threat detection, investigation, and remediation
Intricate threat handling: Learn how partners construct sophisticated tool-use and reasoning to automate complex threat detection and remediation.
Scale via Agent Marketplace: Bypass deployment hurdles to deliver advanced security expertise across your global enterprise instantly with Gemini Enterprise App and the Agent Marketplace.

Networking Break

11:35 AM-12:15 PM

PANEL

Production-Ready AI Agents in Action

12:15 PM-1:00 PM

Move past the hype. See production-ready AI agents from leading security vendors executing real, high-stakes tasks in real-time:
Powered by Gemini Enterprise: Discover how top security software vendors build advanced agentic workflows by leveraging the **Gemini Enterprise Agent Platform** and specialized UX/UI controls (A2UI).
Live operational showcases: Witness fast-paced demonstrations of automated incident remediation, interactive threat hunting builders, and cross-platform actions.
Accelerated MTTR with guardrails: Learn how to dramatically reduce response times while keeping human analysts safely in the loop with Gemini and partner capabilities.

CHAIR

Usman Qureshi

Google

PANELISTS

Sundar Jayashekar
VP, Product Management
Palo Alto Networks

Purvi Desai
VP Engineering
Zscaler Inc

Loren Russon
SVP of Product & Technology
Ping Identity

Lunch & Networking

1:00 PM-2:00 PM

PANEL

2:00 PM-2:45 PM

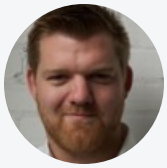

The 2026 Threat Landscape: Mandiant M-Trends & AI Incident Response

Session Description:
Experience a showcase of production-ready agents built to solve high-stakes security challenges and slash response times, including:
Frontline intelligence: Get a gritty look at modern adversary behavior distilled from hundreds of thousands of hours of real-world incident investigations by Mandiant's elite responders.
M-Trends 2026 metrics: Unpack critical data from the landmark M-Trends 2026 report detailing exact initial infection vectors and cascading risks threatening today's enterprises.
AI incident response mechanics: Break down how attackers are weaponizing non-human identities and explore the modern mechanics required to counter AI-driven threats.
Machine-speed disruption: Learn how defenders disrupt active threat actors in real time with Google Threat Intelligence and automated playbook execution.

PANELISTS

Brice Daniels
Head of Northeast Offensive Security Services, Mandiant Consulting
Mandiant (now part of Google Cloud)

Josh Madeley
Practice Lead
Mandiant

Muhammad Muneer
Technical Manager Incident Response
Mandiant (now part of Google Cloud)

Networking Break

2:45 PM-3:30 PM

PANEL

Peer Perspectives: Driving Resilience in the Era of AI

3:30 PM-4:15 PM

In this interactive roundtable, leading CISOs and Security leaders share how they're deploying advanced AI and agentic frameworks to transform their defense posture, streamline vulnerability management, and outpace modern adversaries.
The human-speed gap: Explore the critical inflection point facing enterprise defenders as threat actors weaponize AI to accelerate exploit cycles and automate sophisticated attacks beyond human pace.
Fighting AI with AI: Hear directly from leading CISOs and security leaders on how they are actively deploying advanced AI and agentic frameworks to match and exceed machine-speed threats.
Strategic playbook sharing: Gain insights from interactive roundtable discussions focused on real-world strategies for transforming organizational defensive postures.
Streamlined vulnerability management: Learn how top executives utilize these next-generation tools to optimize vulnerability tracking, streamline remediation, and outpace modern adversaries.

CHAIR

Vineet Bhan
Director, Global Head of Security & Identity Partnerships
Google Cloud

PANELISTS

Rohan Singla
CIO/CISO
