Facing the Hype: An Executive Reality Check on AI in Supply Chain

1:15 PM-2:00 PM

AI is dominating boardroom conversations—but for supply chain leaders in the consumer industry, the question isn't *if* AI is coming, it's *what's actually working*. In this candid fireside chat, we'll cut through the hype to explore where AI is delivering measurable value, and where it's still just a slide in a sales deck. We'll discuss how leaders who've seen AI deployed across planning, forecasting, and execution, and learn how to separate innovation worth investing in from noise that wastes time and budget.

Alan Hudson is one of the top magicians in the UK. Not only a member of The Magic Circle, but actually a member of The Inner Magic Circle (only 250 worldwide). Seen by over 10 million people on ITV's Britain's Got Talent, The Next Great Magician and Penn and Teller: Fool Us. In 2023 he returned for a second appearance on Penn & Teller: Fool Us where he became a winner, 11 years after his first appearance. In 2019 Alan was awarded the Carlton Comedy Award by The Magic Circle for outstanding comedy in magic.
