KEYNOTE

A paradigm shift for true next-generation security

2:00 PM-2:30 PM

Abstract: Introducing the Next-Generation Agentic SOC, a paradigm shift for enterprise security designed to counter the rising challenge of AI-powered threats. By leveraging Google Cloud Security solutions, high-performance AI, and comprehensive threat intelligence, organizations can achieve 100% visibility and operational efficiency. Learn how this approach reinvents the security economy, enabling proactive threat hunting, reducing risk exposure, and delivering predictable, cost-effective outcomes at scale.

Networking Break

2:15 PM-3:15 PM

DISRUPTOR

Threat Briefing Presentation

2:30 PM-2:45 PM

To frame the customer need, the agenda will include an overview of the current AI threat landscape.

FIRESIDE CHAT

Agentic SOC

3:15 PM-3:45 PM

Agentic SOC
As cyber threats accelerate to machine speed, enterprise leaders must rethink how their organizations detect, investigate, and remediate attacks.
We invite you to join ~50 fellow CISOs, CIOs, and technology leaders for a focused executive forum exploring the practical application of Agentic AI in Security Operations.
Through peer case studies and keynote insights from Google Cloud security strategists, this half-day forum will unpack how leading enterprises partner with Next-Gen Agentic MSSPs to scale security capacity, neutralize sophisticated AI-driven threats, and build enduring operational resilience.
Strategic Leverage: Gain a clear blueprint for transitioning security operations from reactive alert triaging to proactive, agentic-driven orchestration.
Peer-Validated Architectures: Hear unvarnished case studies detailing how industry leaders deployed agentic capabilities to resolve talent bottlenecks and reduce critical risk exposure.
Direct Partner Collaboration: Engage in small-group technical pods with specialized Google Cloud MSSP partners to evaluate maturity models and deployment roadmaps.
