THE TRIGGERS TO EVALUATE BUSINESS PROCESSES (AND UPGRADE)

February 16, 2022
3:00 PM-4:15 PM

Eastern Time

While businesses are quite unique, we know that operational and growth challenges can be similar. This panel will take a direct look at the triggers that affect the departments that are most likely to be in search of an ERP or looking to improve business processes within their current ERP system: accounting and finance, technology, and production.
