### AN EVENING WITH KEVIN MANDIA

**September 23, 2025**

5:30 PM-9:00 PM

Eastern Time

Join an intimate group of C-level leaders for a private dinner and discussion with Kevin Mandia, one of the most respected voices in cybersecurity.

Founder of Mandiant and a pioneer in incident response, Kevin has been on the front lines of nation-state attacks, cyber criminal investigations, and enterprise resilience for over two decades. At this exclusive gathering, Kevin will share his candid insights on:

- Why the next wave of cyberattacks will be AI-enabled—and may arrive sooner than you expect
- How attackers are already experimenting with autonomous tools to outpace defenses
- What leaders must do now to prepare for a world where machines battle machines
- Why human expertise, governance, and ethics will be the deciding factor in the AI era
