November 03, 2025

Eastern Time

Registration & Lunch

12:30 PM-1:20 PM

Opening Remarks

1:20 PM-1:30 PM

Agentic AI in Financial Services

1:30 PM-1:55 PM

Agentic AI is rapidly emerging as the next evolution beyond generative AI, reshaping how Financial Services (FS) organizations approach intelligence, automation, and customer engagement. As the industry shifts from experimentation to enterprise-scale adoption, there is growing demand for domain-aware, autonomous AI agents orchestrated across both horizontal and vertical functions.

Part of Capgemini's ResonanceAI Framework, **OrchestrateAI** is an industry-first platform designed to accelerate Financial Services enterprise transformation through Agentic AI leveraging Cloud, Data and AI, built to deliver value across all stages of agent adoption.

AWS Transform with Capgemini Engineering Tools

2:00 PM-2:40 PM

AWS Transform is a comprehensive modernization framework that facilitates the migration of legacy systems—including mainframe, VMware, and .NET—into scalable, cloud-native architectures on AWS. It supports composable, modular modernization tailored to enterprise needs.

For mainframe modernization, AWS Transform helps decouple monolithic architectures and reengineer applications

using cloud-native services. When combined with Capgemini's tools—**CAP360** (portfolio analysis), **BREAD** (business rules extraction), **SmartXform** (code transformation), and **SmartQA** (intelligent testing)—it enables deep insight, automation, and seamless integration across the modernization lifecycle. This approach accelerates transformation, reduces risk and cost, and supports future-ready operations.

Networking Break

2:40 PM-3:00 PM

Accelerating Mainframe Modernization

3:00 PM-3:45 PM

A panel of executive leaders will share real-world experiences and insights from their journey migrating and modernizing mainframe systems to the cloud.

Final Thoughts

3:45 PM-4:00 PM

Networking & Cocktail Reception

4:00 PM-4:30 PM

IN PARTNERSHIP WITH
