CAPACITY WITHOUT COMMITMENT: THE NEXTGEN MSP PLAYBOOK

July 23, 2025

5:30 PM-9:00 PM

Eastern Time

IBudget freezes. Hiring constraints. Rising security demands. Technology leaders are being asked to do more—with less. This private dinner brings together CIOs, CTOs, CISOs, and infrastructure leaders to explore a more flexible approach to managing cloud operations, costs, and security without adding long-term headcount or overhead. From right-sized support models to smarter cloud visibility and better outcomes for your cloud investments, we'll discuss how to make progress—even when the budget says no.
