

# AGENDA

The Promising Future of Artificial Intelligence (AI): Opportunities and Challenges Ahead

## CISO Dinner

### SPEAKERS

**Chris Wysopal**  
Founder and CTO  
Veracode, Inc.

**Dan Seals**  
CISO  
Bonterra

**Dena Jones**  
VP, Office of the CIO  
Fannie Mae

**Candice Frost**  
Director  
Raytheon  
Technologies

### THE PROMISING FUTURE OF ARTIFICIAL INTELLIGENCE (AI): OPPORTUNITIES AND CHALLENGES AHEAD

**December 05, 2023**

5:30 PM-9:00 PM

Eastern Time

The potential of Artificial Intelligence (AI) is vast, as it is now being utilized across all industries. With the combination of machine learning, AI has made significant improvements in the field of cybersecurity. GenAI is taking software development by storm. Will it make software more secure or less? This talk will discuss risks and mitigations when using GenAI to create code and how GenAI can be used for application security tools.

## PANELISTS

**Chris Wysopal**  
Founder and CTO  
[Veracode, Inc.](#)
