**SHAPING HYBRID WORKFORCE SECURITY
WITH SASE TODAY AND TOMORROW**

May 29, 2025

5:30 PM-9:00 PM

Eastern Time

The Secure Access Service Edge (SASE) market is evolving fast—and 2025 is set to be a pivotal year.

- The top SASE market trends and technologies for 2025
 - How modern organizations are transforming security strategies with Unified SASE
 - A preview of upcoming Fortinet innovations that boost performance, security, and cost-efficiency
 - Expert insights on simplifying operations, lowering TCO, and gaining full visibility across distributed networks
- Gain a competitive edge by understanding where the SASE market is heading and how to prepare your organization today.
- From finance to healthcare to government—if you're leading or influencing networking and security decisions, this session is built for you.
