### **TOP 5 CLOUD-NATIVE RISKS**

Today, nearly 70% of organizations host more than half their workloads in the cloud, up from just 31% in 2020. But there's a dangerous pothole on the fast track to cloud migration, and it grows larger the longer it's ignored: application development security. The good news is that wherever you are on the journey right now, with the right guidance you can rethink your cloud native development strategy and confidently steer clear of damage.
