DELIVERING BUSINESS VALUE THROUGH AI IN THE PUBLIC SECTOR

November 04, 2026

6:00 PM-9:30 PM

United Kingdom Time

Artificial Intelligence has moved beyond experimentation and is now becoming a strategic lever for transforming public services to deliver business value. As departments look to deploy AI and agentic capabilities at enterprise scale, leaders face a critical challenge: how to deliver measurable business value through AI enabled transformation in a controlled, secure and trusted way.
