

# AGENDA

**BAM! From Migration to Activation, Leveraging Bedrock and GenAI for  
Intelligent Document Processing**

## Executive Workshop

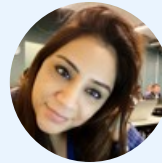

### SPEAKERS

**Landon Meserve**  
VP of Business  
Development &  
Partnerships  
Basis Worldwide

**Joshua Corb**  
Founder/CEO  
Basis Worldwide

**Radhika Chakravarty**  
Sr. GEN AI Specialist  
Solutions Architect  
AWS

**October 09, 2025**

Central Time

**Breakfast & Registration**

9:00 AM-10:00 AM

**Opening Remarks**

10:00 AM-10:15 AM

**OpenAI to AWS Bedrock Migration - Strategy,  
Architecture, and Cost Optimization**

10:15 AM-10:45 AM

This session will walk attendees through Basis' AWS Marketplace backed framework for transitioning GenAI workloads to Amazon Bedrock. Topics include BAM (Bedrock Assessment Migration tool), prompt conversion, embedding migration, cost-performance benchmarking, Bedrock model selection, model performance comparison, secure architecture provisioning using CloudFormation, and case studies across regulated industries. Ensuring an LLM provides business value whether you have existing GenAI workloads or are net new to LLMs. Hands on workshop to connect example codebase to BAM to see how assessments work

## Hands-On Lab

10:45 AM-11:30 AM

## Q&A and Open Discussion

11:30 AM-11:50 AM

## Lunch

11:50 AM-1:00 PM

## Activating Migrated Data - Intelligent Document Processing with GenAI

1:00 PM-1:30 PM

After migration, what comes next? This session shows how to operationalize unstructured data using GenAI and AWS-native services. Attendees will explore document ingestion pipelines powered by Textract, RAG-based summarization using Bedrock and SageMaker, and vector DB integration for intelligent retrieval. Basis will present reusable patterns for IDP and walkthrough real production architectures that reduce manual effort and accelerate insights.

## Workshop Parsing Documents

1:30 PM-2:15 PM

## Q&A and Open Discussion

2:15 PM-2:30 PM

## Networking Activity

2:30 PM-3:30 PM
