**DISCOVER HOW ATOS & AWS CAN HELP  
YOU DRIVE SECURE, AI-POWERED  
INNOVATION ACROSS YOUR ENTERPRISE  
CLOUD JOURNEY**

**December 03, 2025**

5:30 PM-8:30 PM

Pacific Time

Explore how intelligent cloud strategies can deliver real business outcomes — spanning data, AI, cybersecurity, application modernization, and next-generation platforms.

From accelerating secure cloud transformation to building cloud-native foundations and unlocking operational excellence, organizations can modernize, optimize, and innovate with purpose. This is especially critical in regulated and sovereign sectors, where embracing AI with confidence requires strategic, secure, and compliant cloud services. Whether your goal is to drive innovation with Agentic AI, modernize legacy platforms with intelligent automation, or co-innovate for secure digital operations, the future of transformation starts here.
