

AGENDA

Agentic AI & Mainframe Modernization Executive Forum: An Accenture +
MongoDB Global Program for Financial Services Leaders

Symposium

SPEAKERS

Javier Trujillo
Head of Operations
& Transformation
Enterprise Analytics
BBVA

**Fernando San
Martín**
Head of Digital
Transformation,
Digital Business &
Innovation
CESCE

John Henriksson
Global CIO – Rates &
Credit Technology
Banco Santander

**Antonio Sánchez
Medina**
Executive Director |
CIO for F&BSM
Banco Santander

Central European Time

Registration & Lunch

1:30 PM-2:30 PM

Opening Remarks

2:30 PM-2:40 PM

KEYNOTE

2:40 PM-3:10 PM

Modernizing Mainframes for the Agentic AI Era

Legacy systems continue to power mission-critical financial operations, but they often limit innovation and scalability by trapping data in rigid, hierarchical structures. This panel will explore how modernizing these systems, moving beyond simple code translation, is enabling institutions to transition from high-cost architectures to flexible, document-centric platforms that serve as the bedrock for advanced AI initiatives.

The discussion will include real-world insights from one of our banking customers, where they'll share their journey of moving from legacy silos to MongoDB Atlas. They will highlight how this strategic shift, in collaboration with Accenture and MongoDB, has allowed them to turn "static" financial records into dynamic, AI-ready data assets.

Topics include:

Building AI-Ready Infrastructures

The Power of Unified Data

Agility Meets Compliance

The "MIPS to Innovation" Pivot

PANEL

3:15 PM-4:15 PM

Modernizing for Intelligence: Unlocking the Agentic AI Era

Legacy systems continue to power mission-critical financial operations, but they often limit innovation and scalability. This panel will explore how modernizing these systems is enabling institutions to transition from rigid, high-cost architectures to agile, cloud-ready platforms that power advanced AI initiatives.

The discussion will include real-world insights from one of our banking customers, where they'll share their strategic focus, modernization goals, and how working in collaboration with Accenture and MongoDB is helping them achieve their objectives.

Topics include:

Strategic approaches to building resilient, AI-ready infrastructures tailored to customers' needs.

Supporting advanced analytics and AI initiatives with modern, flexible data architectures.

Driving innovation while maintaining reliability and compliance in the regulated financial sector.

Learn from industry leaders and customers how these modernization efforts are creating scalable platforms that deliver transformational business value.

WINE TASTING Uncorking Innovation: A Taste of the Future Beyond Legacy Systems

4:30 PM-5:15 PM

End the event on a high note with a curated wine tasting, seamlessly blending networking with a dynamic roundtable discussion. Share real-world insights and strategies for moving beyond the AI pilot stage, building trusted data foundations, and modernizing legacy systems—all while exploring how innovation, much like great wine, thrives on complexity and thoughtful transformation.

Don't miss this opportunity to hear directly from industry leaders and customers about their modernization journeys, gain actionable insights, and connect with peers shaping the future of financial services innovation.

Closing Remarks & Networking
