## CREATING TRANSFORMATION THROUGH
## DATA & ANALYTICS

📅 **August 10, 2021**

3:00 PM–4:15 PM

Central Standard Time (CST)

If digital transformation is a journey, then data is the fuel that transports your company from here to there. Comprehending and creating insight from data is transformational. Being able to gather and analyze data to generate a competitive edge, creates new opportunities and promotes innovation. However, to support a pipeline of up-to-date and competitive modern data and analytics, a sound foundation and architecture must be constructed.
