### THE GREATEST FEARS?

**December 09, 2021**

11:00 AM-12:15 PM

Pacific Time

The biggest fear is not the technology, it is the potential of human error that could expose your organization to a cyberattack. The majority of CISOs agree that an employee carelessly falling victim to a phishing scam is the most likely cause of a security breach. Most also agree that they will not be able to reduce the level of employee disregard for information security. How do we guard

against human error without limiting employee efficiency and productivity?

## CHAIR

**VJ Viswanathan**  
CEO  
TORQE

**VJ Viswanathan (1)**  
CEO  
TORQE
