**FROM LEGACY TO LEADERSHIP:
UNLOCKING CLOUD-NATIVE APPLICATION
TRANSFORMATION**

April 07, 2026

5:30 PM-9:00 PM

Pacific Time

Legacy applications can quietly constrain growth, agility, and innovation while introducing hidden risk across the organization. Join this executive roundtable to learn a practical, business-driven approach to application modernization on Google Cloud that helps leaders reduce technical debt and accelerate time to value. Learn how organizations are leveraging modern tooling, AI-enabled insights, and proven governance models to modernize with confidence.
