NAVIGATING THE CLOUD & AI SECURITY FRONTIER: AN EXECUTIVE ROUNDTABLE

September 23, 2026

5:30 PM-9:00 PM

Central Time

Join fellow cybersecurity executives for an exclusive, invitation-only roundtable dinner focused on the evolving challenges and opportunities at the intersection of cloud and AI security. Engage in open dialogue and strategic discussions on emerging threats, proactive defense strategies, and the latest innovations shaping the industry. This is your chance to connect with peers, gain valuable insights, and collaborate on solutions to safeguard your organization in an increasingly complex digital landscape.

Key Discussion Points:

Identifying and mitigating emerging threats in cloud and AI environments

Best practices for securing sensitive data and intellectual property

Building a resilient and adaptive security infrastructure Leveraging AI for threat detection and incident response

The role of leadership in fostering a strong security culture

TOGETHER WITH
