

2025 Gartner® Magic Quadrant™ for SASE Platforms

Fortinet has been recognized as a Leader in the 2025 Gartner® Magic Quadrant™ for SASE Platforms — we believe this validates our approach to convergence, innovation, and real-world execution.

Why it Matters

Fortinet Unified SASE is tightly integrated — it's built as one:

- Powered by a single OS, managed through one console
- Industry-leading SD-WAN, tightly integrated with our scalable SSE solution
- Universal ZTNA for secure access to apps, data, and users anywhere
- #1 ranking in Secure Branch Network Modernization use case in the companion 2025 Gartner® Critical Capabilities Report for SASE Platforms
- Built-in real-time AI-powered security
- With the simplest, most cost-effective licensing in the category

Fortinet SASE gives organizations a unified way to secure, connect, and scale — without compromise.

Fortinet is the only vendor on the 2025 Gartner® Magic Quadrant™ for SASE Platforms also to be recognized in four different network security Magic Quadrant™ reports, which include, SD-WAN, SSE, Enterprise Wired and Wireless LAN Infrastructure, and SASE Platforms; all running on the same unified FortiOS with AI-powered FortiGuard Labs threat intelligence.
