

Professional Services

Professional Services Providing Optimization, Enablement, and Health Expertise on SentinelOne Key Products

Ad hoc professional services are designed to provide customers with a wide range of assistance for the various products and features offered by SentinelOne. These on-demand, targeted service offerings are designed to address specific and evolving needs faced by organizations. Each service is tailored to a unique focus area and provides expert assistance in deploying, optimizing, and managing the Platform Products offered by SentinelOne.

Value Focused

Each ad hoc service is designed to fill a specific need and provide a tailored outcome for the customer. The catalog of available services is focused on areas that have been routinely requested for, and where SentinelOne feels that they can provide exceptional value for our customers.

Subject Matter Expert
