

Why Allscripts

More than a software vendor.
Your trusted partner in
healthcare delivery.

Allscripts understands that providing excellent healthcare while achieving business and operational goals isn't easy. To manage each, organizations need a partnership anchored in trust that delivers optimal performance—now and in the future.

Partnership

Allscripts is the partner you need to deliver smarter, more connected healthcare that's alive with possibilities. We take great pride in our clients' successes and are continually enhancing our offerings to equip you with the capabilities you need today and well into the future. Partnership is at the core of everything we do, and we are pleased to regularly receive industry recognition for this ethos—including a recent naming of Allscripts as Microsoft Health Partner of the Year.

Trust

Allscripts has been rated #1 in Trust by healthcare providers for nine consecutive years, according to the industry analyst firm, Black Book Research. Allscripts is the trusted healthcare IT vendor of choice for more than 30,000 healthcare organizations worldwide, where our commitment to outcomes and excellence has developed a confidence that fuels long-term client relationships.

Performance

Enhancing outcomes and client satisfaction are the imperatives that drive our technology roadmaps. With 17% of our annual revenue invested into research and development, Allscripts far exceeds the competition in our commitment to continued innovation. And this innovation is recognized by the industry, with a recent nod from Black Book Research for the top integrated EHR for hospital systems, 2020 ranking. With 1.8 billion in revenue in 2019 and assets in excess of \$3.2 billion, Allscripts has the long-term financial stability to continue innovating for our clients as the industry evolves.
